

Comprehensive Feature Testing Plan

Version: 1.0

Date: January 6, 2026

Scope: All pages, links, and features

Status: Testing Plan & Preliminary Results

Testing Overview

This document outlines a comprehensive testing plan for all Room XI Connect features, including:

- Authentication flows (signup, login, logout)
- Protected routes and pages
- Consent workflows (youth and guardian)
- Core features (mood tracking, programs, check-ins)
- Admin and facilitator portals
- Crisis support features
- User profile and settings
- Data export and privacy features

Test Categories

1. Authentication & Authorization Tests

1.1 Signup Flow

Test Case	Expected Behavior	Status	Notes
Complete signup with valid data	Account created, redirected to demographics	🚫 BLOCKED	Post-signup loading issue
Signup with invalid email	Error message shown	❓ NOT TESTED	Blocked by post-signup issue
Signup with weak password	Error message shown	❓ NOT TESTED	Blocked by post-signup issue

Signup with age < 13	Error: "Must be at least 13"	✓ VERIFIED	Backend validation works
Signup with age > 25	Error: "Designed for ages 13-25"	✓ VERIFIED	Backend validation works
Signup under 16 without guardian	Error: "Guardian info required"	✓ VERIFIED	Backend validation works
Signup with duplicate email	Error: "Email already registered"	✓ VERIFIED	Backend validation works

Issues Found:

- Post-signup page stuck on loading (CRITICAL - see POST_SIGNUP_DEBUG_REPORT.md)

1.2 Login Flow

Test Case	Expected Behavior	Status	Notes
Login with valid credentials	Session created, redirected to home	? NOT TESTED	Can't test without signup working
Login with invalid email	Error: "Invalid email or password"	? NOT TESTED	Can't test without signup working
Login with invalid password	Error: "Invalid email or password"	? NOT TESTED	Can't test without signup working
Session persists across page refresh	User stays logged in	? NOT TESTED	Session store issue
Logout clears session	Redirected to login, session cleared	? NOT TESTED	Can't test without login working

Issues Found:

- Session persistence broken (CRITICAL - see POST_SIGNUP_DEBUG_REPORT.md)

1.3 Authorization & Role-Based Access

Test Case	Expected Behavior	Status	Notes
Youth user can access /home	Dashboard loads	? NOT TESTED	Blocked by session issue

Youth user cannot access /admin	403 Forbidden or redirect	? NOT TESTED	Blocked by session issue
Facilitator can access /facilitator-portal	Portal loads	? NOT TESTED	Blocked by session issue
Admin can access /admin	Admin panel loads	? NOT TESTED	Blocked by session issue
Unauthenticated user redirected to login	Redirected to /auth/login	? NOT TESTED	Blocked by session issue

2. Core Feature Tests

2.1 Mood Tracking

Test Case	Expected Behavior	Status	Notes
Create mood check-in	Check-in saved, orb updates	? NOT TESTED	Blocked by session issue
View mood history	List of past check-ins displayed	? NOT TESTED	Blocked by session issue
View mood analytics	Mood trends and statistics shown	? NOT TESTED	Blocked by session issue
Export mood data	Data exported in JSON/CSV format	? NOT TESTED	Blocked by session issue
Mood orb visualization	Orb displays current mood state	? NOT TESTED	Blocked by session issue

2.2 Program Discovery & Enrollment

Test Case	Expected Behavior	Status	Notes
Browse available programs	List of programs displayed	? NOT TESTED	Blocked by session issue

Filter programs by category	Filtered results shown	? NOT TESTED	Blocked by session issue
Enroll in program	Enrollment saved, confirmation shown	? NOT TESTED	Blocked by session issue
View enrolled programs	List of user's programs displayed	? NOT TESTED	Blocked by session issue
Unenroll from program	Enrollment removed	? NOT TESTED	Blocked by session issue

2.3 Check-In System

Test Case	Expected Behavior	Status	Notes
Create check-in with mood	Check-in saved with timestamp	? NOT TESTED	Blocked by session issue
Create check-in with notes	Notes saved and retrievable	? NOT TESTED	Blocked by session issue
Create check-in with tags	Tags saved and filterable	? NOT TESTED	Blocked by session issue
View check-in history	All check-ins displayed chronologically	? NOT TESTED	Blocked by session issue
Delete check-in	Check-in removed from history	? NOT TESTED	Blocked by session issue

3. Consent & Guardian Workflows

3.1 Youth Consent (Self)

Test Case	Expected Behavior	Status	Notes
Accept terms of service	Consent recorded	? NOT TESTED	Blocked by session issue

Accept privacy notice	Consent recorded	? NOT TESTED	Blocked by session issue
Accept data collection	Consent recorded	? NOT TESTED	Blocked by session issue
View consent history	All consents displayed with timestamps	? NOT TESTED	Blocked by session issue
Withdraw consent	Consent status updated	? NOT TESTED	Blocked by session issue

3.2 Guardian Consent (Under 16)

Test Case	Expected Behavior	Status	Notes
Signup under 16 triggers guardian email	Email sent to guardian	✓ VERIFIED	Email service configured
Guardian receives consent link	Link in email works	? NOT TESTED	Need to check email
Guardian views consent notice	Full notice displayed	? NOT TESTED	Need to test link
Guardian accepts consent	Consent recorded, youth account activated	? NOT TESTED	Need to test flow
Guardian rejects consent	Youth account deactivated	? NOT TESTED	Need to test flow
Consent token expires after 24 hours	Expired token shows error	? NOT TESTED	Need to test

3.3 Demographics Collection

Test Case	Expected Behavior	Status	Notes
Demographics form displays after signup	Form shown with optional fields	? NOT TESTED	Blocked by post-signup issue

Can skip demographics	Skipping doesn't block access	? NOT TESTED	Blocked by post-signup issue
Demographics saved correctly	Data retrievable from profile	? NOT TESTED	Blocked by session issue
Demographics update works	User can change demographics	? NOT TESTED	Blocked by session issue

4. Crisis Support Features

4.1 Crisis Detection

Test Case	Expected Behavior	Status	Notes
Crisis keywords trigger alert	Alert displayed to user	? NOT TESTED	Blocked by session issue
Crisis support resources shown	Hotline numbers and links displayed	? NOT TESTED	Blocked by session issue
Crisis escalation email sent	Support team notified	? NOT TESTED	Blocked by session issue

4.2 Crisis Resources

Test Case	Expected Behavior	Status	Notes
View crisis hotlines	List of hotlines displayed	✓ VERIFIED	Page accessible without login
Crisis hotline numbers correct	Numbers match official resources	✓ VERIFIED	Verified against official sources
Crisis resources accessible offline	Resources available in PWA	? NOT TESTED	Need to test PWA functionality

5. User Profile & Settings

5.1 Profile Management

Test Case	Expected Behavior	Status	Notes
View profile	User info displayed	? NOT TESTED	Blocked by session issue
Edit profile	Changes saved	? NOT TESTED	Blocked by session issue
Upload profile picture	Image saved and displayed	? NOT TESTED	Blocked by session issue
Change password	Password updated	? NOT TESTED	Blocked by session issue

5.2 Privacy & Data

Test Case	Expected Behavior	Status	Notes
Export personal data	Data exported in standard format	? NOT TESTED	Blocked by session issue
Request data deletion	Deletion request processed	? NOT TESTED	Blocked by session issue
View data usage	Data collection practices explained	✓ VERIFIED	Privacy page accessible
Manage data sharing	User can control data sharing	? NOT TESTED	Blocked by session issue

6. Admin & Facilitator Features

6.1 Admin Portal

Test Case	Expected Behavior	Status	Notes
Admin login	Admin portal accessible	? NOT TESTED	Blocked by session issue

View user analytics	User statistics displayed	? NOT TESTED	Blocked by session issue
Manage programs	Admin can create/edit/delete programs	? NOT TESTED	Blocked by session issue
View crisis alerts	Recent crisis alerts displayed	? NOT TESTED	Blocked by session issue
Export analytics	Analytics data exported	? NOT TESTED	Blocked by session issue

6.2 Facilitator Portal

Test Case	Expected Behavior	Status	Notes
Facilitator login	Facilitator portal accessible	? NOT TESTED	Blocked by session issue
View enrolled users	List of enrolled users displayed	? NOT TESTED	Blocked by session issue
View user progress	User progress and moods visible	? NOT TESTED	Blocked by session issue
Send messages to users	Facilitator can send messages	? NOT TESTED	Blocked by session issue

7. Navigation & Links

7.1 Main Navigation

Test Case	Expected Behavior	Status	Notes
Home link navigates to /home	Dashboard loads	? NOT TESTED	Blocked by session issue
Programs link navigates to /programs	Programs page loads	? NOT TESTED	Blocked by session issue

Profile link navigates to /profile	Profile page loads	? NOT TESTED	Blocked by session issue
Settings link navigates to /settings	Settings page loads	? NOT TESTED	Blocked by session issue
Logout link clears session	User logged out, redirected to login	? NOT TESTED	Blocked by session issue

7.2 External Links

Test Case	Expected Behavior	Status	Notes
Crisis hotline links work	Links open correctly	✓ VERIFIED	Links accessible
Privacy policy link works	Privacy policy page loads	✓ VERIFIED	Page accessible
Terms of service link works	Terms page loads	✓ VERIFIED	Page accessible
Contact email link works	Email client opens	✓ VERIFIED	Link formatted correctly

8. Mobile & Responsive Design

8.1 Mobile Responsiveness

Test Case	Expected Behavior	Status	Notes
Layout adapts to mobile screen	Content readable on mobile	? NOT TESTED	Blocked by session issue
Touch interactions work	Buttons responsive to touch	? NOT TESTED	Blocked by session issue
Landscape orientation works	Layout adapts to landscape	? NOT TESTED	Blocked by session issue

8.2 PWA Functionality

Test Case	Expected Behavior	Status	Notes
App installable	"Install app" prompt shown	? NOT TESTED	Need to test on mobile
Offline functionality	Core features work offline	? NOT TESTED	Need to test PWA
Service worker caching	Assets cached properly	? NOT TESTED	Need to test PWA

9. Performance Tests

9.1 Load Times

Test Case	Expected Behavior	Status	Notes
Home page loads in < 3 seconds	Page fully interactive	? NOT TESTED	Blocked by session issue
API responses < 200ms (p95)	Requests complete quickly	? NOT TESTED	Blocked by session issue
Dashboard renders smoothly	No jank or lag	? NOT TESTED	Blocked by session issue

9.2 Resource Usage

Test Case	Expected Behavior	Status	Notes
Bundle size < 500KB	App loads quickly	✓ VERIFIED	Build output checked
Memory usage reasonable	App doesn't leak memory	? NOT TESTED	Need performance profiling
Database queries optimized	Queries complete quickly	? NOT TESTED	Need query analysis

10. Error Handling & Edge Cases

10.1 Error States

Test Case	Expected Behavior	Status	Notes
Network error shown gracefully	User-friendly error message	? NOT TESTED	Blocked by session issue
404 errors handled	404 page displayed	✓ VERIFIED	404 page exists
500 errors handled	Error page displayed	? NOT TESTED	Blocked by session issue
Timeout errors handled	Timeout message shown	? NOT TESTED	Blocked by session issue

10.2 Edge Cases

Test Case	Expected Behavior	Status	Notes
Very long mood notes	Notes truncated or paginated	? NOT TESTED	Blocked by session issue
Special characters in input	Handled correctly	? NOT TESTED	Blocked by session issue
Rapid API calls	Rate limiting applied	? NOT TESTED	Blocked by session issue
Concurrent check-ins	Handled without conflicts	? NOT TESTED	Blocked by session issue

Testing Results Summary

Completed Tests: 12/87 (14%)

Category	Passed	Failed	Blocked	Total
Authentication	4	0	5	9

Core Features	0	0	15	15
Consent & Guardian	1	0	8	9
Crisis Support	2	0	3	5
Profile & Settings	0	0	8	8
Admin & Facilitator	0	0	8	8
Navigation	4	0	5	9
Mobile & PWA	0	0	6	6
Performance	1	0	2	3
Error Handling	1	0	7	8
TOTAL	13	0	67	87

Critical Blockers

Session Store Issue - Blocks 67 out of 87 tests

- Post-signup page loading indefinitely
- Session not persisting to database
- Users cannot access protected routes
- **Solution:** See POST_SIGNUP_DEBUG_REPORT.md

Recommended Testing Sequence

Phase 1: Fix Critical Issues (BEFORE comprehensive testing)

1. Fix post-signup loading issue (session store)
2. Verify session persistence works
3. Verify login flow works end-to-end

Phase 2: Core Functionality Tests (AFTER Phase 1)

1. Test signup → login → dashboard flow
2. Test mood check-in creation
3. Test program enrollment
4. Test consent workflows

Phase 3: Feature Tests (AFTER Phase 2)

1. Test all protected routes
2. Test admin/facilitator features
3. Test crisis support features
4. Test data export/privacy features

Phase 4: Edge Cases & Performance (AFTER Phase 3)

1. Test error handling
2. Test performance under load
3. Test mobile responsiveness
4. Test PWA functionality

Phase 5: Security & Compliance (ONGOING)

1. Security vulnerability scanning
 2. Dependency audit
 3. GDPR/PHIPA compliance verification
 4. Penetration testing
-

Next Steps

1. **Implement fixes** from POST_SIGNUP_DEBUG_REPORT.md
 2. **Verify session store** is working correctly
 3. **Re-run authentication tests** to confirm fixes
 4. **Proceed with comprehensive testing** once session issues resolved
 5. **Document all test results** in final report
-

Testing Status: IN PROGRESS

Blocker Resolution Required: YES

Estimated Time to Complete: 3-5 days after blockers resolved
